

Oct 2009

To our valued customers,

CardioComm Solutions, Inc. is proud to announce the GEMS™ AutoAttendant re-design project has been completed. On April 2009, we officially released "**AutoAttendant 3**" to our customers. The new AutoAttendant 3 system has been completely redesigned around the new multi-line Dialogic boards on the market today.

Due to the price increase of new DIVA Dialogic boards, we would like to offer any existing GEMS AutoAttendant 2 customers a loyalty discount for the GEMS™ AutoAttendant 3 upgrade.

2 port board "AutoAttendant 3" system: **\$4,600 US\***  
4 port board "AutoAttendant 3" system: **\$5,200 US\***  
8 port board "AutoAttendant 3" system: **\$5,700 US\***

(\* **inclusive** of a one year term of Service and Support, a \$1,875 value).

The limited time price would include the cost of the new Dialogic voice board, complete remote removal of the older AutoAttendant 2 system, installation and setup of the new AutoAttendant 3 software system, and the complete upgrade of the GEMS™ program.

On April 1<sup>st</sup> 2009, the old AutoAttendant 2 system was declared "End of Life". For our current customers enrolled in our Support contract (new annual fee \$1,875), we will continue to respond to support related calls regarding this discontinued product.

In addition to this upgrade discount, until October 31st 2009, we also are offering a discount of **40% off** on the purchase of King of Hearts™ event recorders (KOH Express AF) when packaged together with the GEMS™ Autoattendant upgrade only. A two year warranty and support is provided with the KOH Event Recorders purchased through us.

If you have any questions or you would like to receive a quote with this limited time offer, feel free to call or email me directly.

With best regards,

**Phil Richardson**
